# Professional, penetrating anti-slip floor deep cleaner

Bonasytems is the market leader in specialist floorcare products.

Working in partnership with selected distribution partners, we help clients to achieve higher standards of:

- Cleanliness
- Hygiene
- Safety (anti-slip)

## Benefits of Bonasytems Pro4

- Excellent deep cleaner on all sorts of hard floor surfaces
- Increases slip resistance of a tiled/stone surface above its inherent level
- Perfect deep clean anti-slip for various environments

## Five simple steps to success

### Step 1

Dilution Pro4 2:1

### Step 2

Apply to the floor evenly

### Step 3

Immediately agitate (scrub) using edging pad or machine

### Step 4

Leave on the surface for 5 minutes, scrubbing occasionally

### Step 5

Remove with fresh water (rinse to drain/wet vacuum up) then rinse thoroughly

**If using a scrubber drier:** we suggest having only water in the machine tank and using the machine with the squeegee up (double scrub technique). Once you have picked up the chemical and dirt, having only water in the tank means you will be rinsing the floor thoroughly.

## Daily maintenance products

**Daily:** for wet areas e.g. leisure, washrooms, hotel bathrooms

## Typical sites

Retail

Foodservice

Transport

Hospitality

Healthcare

Education
