5L

Specialist floor & wall deep cleaner & calcium/limescale remover

Bonasytems is the market leader in specialist floorcare products.

Working in partnership with selected distribution partners, we help clients to achieve higher standards of:

- Cleanliness
- Hygiene
- Safety (anti-slip)

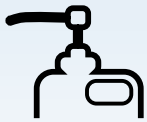

Benefits of Bonasytems Clean

- Excellent deep cleaner on all sorts of hard floor surfaces
- Designed for descaling and removal of limescale in wet environments
- Perfect for the removal of grout residues for construction handover deep cleaning
- Can be used to increase slip resistance on terrazzo, as well as for stain removal

Five simple steps to success

Step 1

Dilute Clean 1:1
(50% chemical/50% water)

Step 2

Apply to the floor evenly

Step 3

Immediately agitate (scrub) using edging pad or machine

Step 4

Leave on the surface for 5 minutes, scrubbing occasionally

Step 5

Remove with fresh water (rinse to drain/wet vacuum up) then rinse thoroughly

If using a scrubber drier: we suggest having only water in the machine tank and using the machine with the squeegee up (double scrub technique). Once you have picked up the chemical and dirt, having only water in the tank means you will be rinsing the floor thoroughly.

Daily maintenance products

Daily: for wet areas e.g. leisure, washrooms, hotel bathrooms

Degreaser+: for greasy areas e.g. kitchens, high foot trafficked floors

Zero and combo-pad: for other general circulation areas
