# Specialist anti-slip floor cleaner

Bonasystems is the market leader in specialist floorcare products.

Working in partnership with selected distribution partners, we help clients to achieve higher standards of:

- Cleanliness
- Hygiene
- Safety (anti-slip)

## Benefits of Bonasystems Pro5

- Powerful anti-slip deep cleaner
- Cuts through grease and grime to achieve a very deep cleaning action
- Increases slip resistance of a tiled/stone surface above its inherent level
- Perfect monthly anti-slip deep cleaner for various environments

## Five simple steps to success

### Step 1

Dilute as recommended in method statement

### Step 2

Apply to the floor evenly

### Step 3

Immediately agitate (scrub) using edging pad or machine

### Step 4

Leave on the surface for 5 minutes, scrubbing occasionally

### Step 5

Remove with fresh water (rinse to drain/wet vacuum up) then rinse thoroughly

**If using a scrubber drier:** we suggest having only water in the machine tank and using the machine with the squeegee up (double scrub technique). Once you have picked up the chemical and dirt, having only water in the tank means you will be rinsing the floor thoroughly.

## Daily maintenance products

**Daily:** for wet areas e.g. leisure, washrooms, hotel bathrooms

**Degreaser+:** for greasy areas e.g. kitchens, high foot trafficked floors

**Zero and combo-pad:** for other general circulation areas

## Typical sites

Retail

Foodservice

Transport

Hospitality

Healthcare

Education
